

Pro/TECH/to®

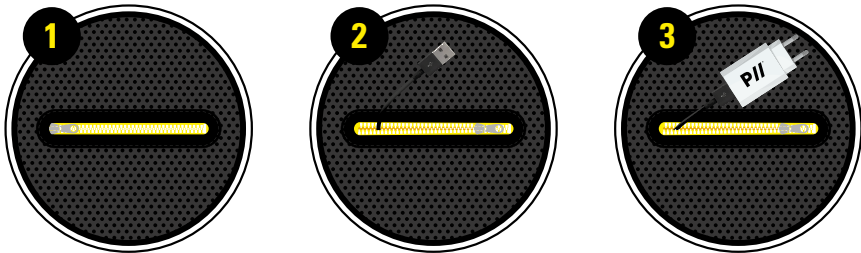

Safety engineering

FIRST ACTI- VA- TION

P//®

INSTRUCTIONS FOR ACTIVATION

1. Fully charge the battery by connecting the MAD[®] to the power supply via the charger included in the box;

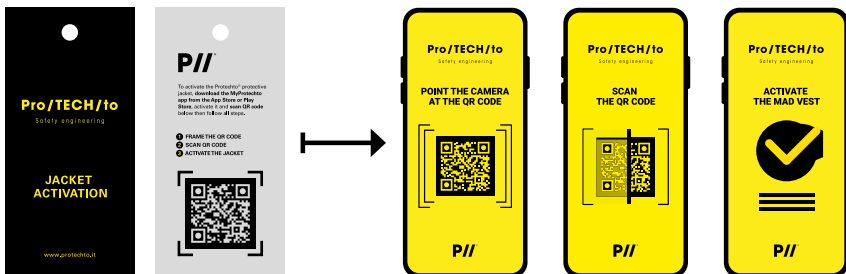

2. Install the app 'My ProTechTo[®]' that you can find by searching ProTechTo[®] on the **Play Store**/**Apple Store**;

3. To activate the system, hold down the power button for **5 seconds** until the three LEDs turn on at the same time and an audio signal (1 short beep) is heard.

4. When prompted by the app, scan the QR Code on the tag attached to the hinge or on the last page of the manual in order to register your device during the authentication process.

FURTHER USEFUL INFORMATION

- When not in use for a long time put the system into deactivation state (sleep system) by holding down the power button for about 5 sec.
- Before each use, log into the App with your credentials and verify that the device status is ready for use.

MAN DOWN

- The App also provides the possibility of using an emergency alert system by means of a preset call/message, through two telephone numbers to be inserted within the App. In case of fall and airbag activation, the App will automatically send a call/message to the numbers entered, also sending the coordinates of the position of the person wearing the device.

This feature is only available when a telephone line is present.

CAUTION: WEAR THE JACKET AS CLOSE TO YOUR BODY AS POSSIBLE SO THAT THE DETECTION SYSTEM WORKS PROPERLY. USE THE SIDE FLAPS TO ADJUST IT.

IMPORTANT!

We recommend that you read the user and maintenance manual carefully before using the vest.
